Re: MB Docket No. 04-233

Dear Ms. Dortch:

Special Kids Network is an independent non-profit organization that was created to provide funding for programs that help children and young adults with special needs. Our mission is to create community awareness and raise funds in support of organizations who believe that every child and young adult – regardless of the nature of their background or disability – should be able to enjoy life to its fullest and to participate in the mainstream of their community.

Special Kids Network is very fortunate to have a company like the Bonneville Station's, specifically WDRV 97.1FM The Drive. With their help we have been able to communicate our message and events over the past 5+ years raising awareness for children and young adults with special needs.

- The station for weeks at a time airs PSAs concerning issues of importance to our organization and its mission.
- PSAs were directed towards an event hosted by our charity and helped drive awareness to our website as well as to the event themselves
 - Hosted an Exotic Car Show for 2 years in which 97.1FM The Drive posted messages on their website as well as assisted with PSA
 - Our annual Golf outing which raised \$150,000 last year can be heard on 97.1FM The Drive for PSAs with morning host Steve Downes racing to the event to attend shortly after his on air broadcast concludes. In addition hosts, Kathy Hart & Eric Ferguson of 101.9FM attend the event and announce our event and awareness on their shows. Greg Solk acts as Vice President and sits upon the Board of Directors for the organization.

The Bonneville Station absolutely serves our needs and we see no need for additional rules or reporting requirements that insert federal oversight of the process of broadcasters serving the community. They have been more than generous in the help given and dollar's raised on our behalf.

Respectfully submitted,

Trevor Brody
